Subject: Oregon Health Comments on HHRA

Chris,

Please find attached comments on the Harbor Oil HHRA. These are intended as official public comment. Please contact me using the information in my signature block below or letterhead with questions about these comments.

Thank you for the opportunity to review this RI/RA,

David Farrer
Environmental Health Assessment Program
Office of Environmental Public Health

800 NE Oregon St., Ste. 640
Portland, OR 97232-2162

All,
I am pleased to provide the Draft Final Remedial Investigation and Risk Assessments for the Harbor Oil NPL Site. Access to the reports is available through the Windward Portal via the internet.

To access the files, log in as described below.

Portal link:
Non Responsive

The redlined main RI document and all of its appendices (except the risk assessments) are under the remedial investigation tab on the portal. The redlined risk assessments and their attachments are under the risk assessment tab. The response to comment tables for the RI and risk assessments are under their respective tabs. Note that if you have any trouble downloading some of the files, particularly the large files, click on the disk symbol (which will download the file) rather than on the document title hyperlink (which attempts to open the file in your internet browser).

EPA requests that written comments be provided to EPA by October 1, 2010. I shall be unavailable from September 3, until October 4. If you have questions or concerns that you would like to discuss with EPA, please contact my supervisor, Deb Yamamoto at 206 553-7216.

If you have difficulty accessing the documents please contact Suzanne Replinger of Windward Environmental, LLC at: 206.812.5435.

Christopher Cora,
Project Manager
U.S. Environmental Protection Agency
